The Psyche and Eros Relationship Potential Report

The Psyche and Eros Relationship Potential Report is comprised of the first two sections of the complete Psyche and Eros Relationship Analysis. This abbreviated version of the complete report describes the emotional needs, temperament, hang-ups and issues each person brings to the relationship. For an analysis of the compatibility of these individuals, see the last two sections of the complete Psyche and Eros Relationship Analysis. This can also be accessed separately as the Psyche and Eros Compatibility Analysis.

Gemini on 7th house cusp

Any kind of confinement - mental, physical or emotional - is abhorrent to you. You cannot and will not be emotionally stifled by your partners. Thus, you may often be close to more than one person simultaneously in order to avoid feeling too dependent.

When you make a commitment (and you may do so more than once), your partner must be as intellectually stimulating and curious and restless as you are. Your boredom tolerance is noticeably low. You don't form emotional ties unless there is mental rapport.

Your dreams, ideals and speculations about matters which transcend day-to-day living are so central to your existence that any person you feel close to must be someone with whom you can discuss these ideas since no one else seems to understand them.

Your partners are bright, verbal, curious people who, on the surface may not appear to have a great deal of emotional depth. However, they connect with you intellectually and that tie appears to be the channel through which you can share emotionally.

Sun in 7th

You tend to put those close to you on a pedestal and allow their projects and personalities to define your goals and directions. Your partners are often "important" people - however you define that - and you vicariously enjoy their status and prestige.

Marriage and committed ties may occur later in life if you are in public life or if you have formed a close professional relationship with an admired person. In your private life, you often find yourself deferring to others' needs before your own.

Mercury in 7th

You love good conversation, frequent change of surroundings and a stimulating environment. You tend to draw people - often a good deal younger than you - who are extremely verbal and share your many interests. Personal ties may develop through your work.

Your close ties are usually with professional people. They may also be creative in business or the arts, requiring them to speak or write for the public. Your relationships are often marked by frequent letter-writing and telephone calls and traveling.

Mercury, Ruler of 7th house, is in 7th:

You are a traveler. When you can't get away physically, you travel imaginatively. You dream. However you manage to transcend the mundane, you don't like to do it alone. You like to share it. At the very least you need to talk about it. When you don't have a significant other in your life, that need is projected onto the public.

Your speaking and writing skills are especially honed and put to good use professionally. You discuss everything with those to whom you are close and, in return, like to know everything about them. Secrets drive you crazy. Actually, they hurt your feelings since, for you, intimacy is closely associated with the sharing of ideas. Hopefully, you often draw people - sometimes younger - who are also curious and communicative and those long talks which initiated the relationship may help to sustain it. Your personal partnerships are frequently your professional partners as well.

Sun Square Moon with an orb of less than 1/2 degree

When you were growing up, there was a distance between your parents either physically or emotionally. You did not experience mother/father, male/female, yin/yang working together as a unit. Thus, you may have difficulty with at least one intimate tie.

Venus Conjunct Uranus with an orb between 1 and 3 degrees

You need to be close and you need to be free. This is a major life conflict which has always created complications for you in close personal relationships. One manifestation of this may be a tendency to pursue the unavailable or the unreliable.

Saturn Trine MC with an orb between 1 and 3 degrees

You learned at an early age to be cautious with people in a position of authority. This reserve may also extend to personal relationships with those you may admire or respect. Old parenting issues inevitably infiltrate all of your close relationships.

Mercury Sextile Uranus with an orb of less than 1 degree

You have an innovative turn of mind and may have a talent for an unusual subject. Your ideas are often considered to be ahead of your time. You can be somewhat impersonal and detached - even with close ties. You need to share controversial ideas with friends.

Moon Conjunct MC with an orb between 3 and 5 degrees

Your emotional needs and interests transcend your immediate domestic environment. You abhor the provincial and aspire to participate in something which will be of benefit to many. This is not mere ambition but a passion. You may attract the public eye.

Venus Square Mars with an orb between 3 and 5 degrees

Yours was not a happy childhood and, while there is nothing you want more than a close love relationship, you may also fear it. You probably have an active sex life but may have some discomfort acknowledging feelings of love, dependence or vulnerability.

Sun Trine Jupiter with an orb between 3 and 5 degrees

You have a genial, pleasant quality which inspires confidence in others. It sometimes surprises you the way people trust you with their innermost thoughts. Moral integrity is important to you and, while you are not

judgmental, you will not violate a principle.

Moon Sextile Asc. with an orb between 1 and 5 degrees

You are more expressive of what you're feeling than you sometimes realize. People respond to you in a very immediate way because they can intuitively sense what is emotionally motivating you and they feel comfortable. You may attract public attention at times.

Mercury Sextile Venus with an orb between 1 and 5 degrees

You are creative and charming. You speak well, live well and are fond of people who have taste, wit, good manners and share your aesthetic interests. Your emotional ties must also be on your intellectual level or your interest will soon begin to wane.

Sun SemiSquare Mars with an orb between 1 and 2 degrees

Something in your relationship with your father aroused in you either fear or anger or both. Your relationships with men - personally or professionally - are not comfortable and when you are feeling vulnerable, you can be overly defensive or challenging.

Moon Sesquiquadrate Mars with an orb between 1 and 2 degrees

Your love-hate relationship with your mother has led to an emotional ambivalence in current close ties. You are, at once, very needy and very angry about your neediness. This may make you somewhat cantankerous at times. You are very quick-tempered.

Mercury Quintile Pluto with an orb between 1 and 3 degrees

You are extremely persuasive and, perhaps, skilled at manipulating others to share your views. Your intuition is powerful and the research skills which may help you professionally also manifest in your private life. You know everyone's deepest secrets.

Venus Quintile Neptune with an orb between 1 and 3 degrees

However cool or cynical you may appear to be externally, you are extraordinarily sensitive and romantic. You are gentle and artistic and would rather do without a relationship than be part of one which does not measure up to your highest ideals of love.

Mercury Opposition Asc. with an orb between 5 and 8 degrees

You relate to your world through your intellect but you may be so absorbed in your own ideas or projects that you don't always perceive when misunderstandings or cross-purposes place you at odds with others and set up unnecessary barriers to communication.

Sun Trine Neptune with an orb between 5 and 8 degrees

One of your great strengths is your sensitivity. You tune in easily to the psyches of other people and, while you may not notice the color of their eyes, have an almost eerie understanding of their private inner worlds. Your close ties are very private.

Moon Trine Saturn with an orb between 5 and 8 degrees

While you may not be overly demonstrative emotionally, you take close personal relationships very seriously and always feel a strong sense of responsibility and loyalty. You are not a fair-weather friend. When someone needs you, you are always there.

Venus Trine Asc. with an orb between 5 and 8 degrees

You are personally attractive with a natural charm which tends to draw people to you. Your native courtesy tends to make others assume that you share their values even when this isn't quite the case. You are unusually sensitive to others' appearance.

Uranus Trine Asc. with an orb between 5 and 8 degrees

You are an unusual person and are often perceived as "ahead of your time" in some way. Friendship is very important to you - especially in your love affairs. You don't like relationships which are overly defined or confining. You must feel free to love.

Sun does not aspect Asc.

People do not receive an accurate first impression of you. Owing to shyness or lack of confidence, you have cultivated a persona which is not expressive of the person you experience yourself to be. This creates complications in personal relationships.

Moon does not aspect Mercury

It's as if the emotional and rational sides of your nature take turns expressing themselves. You are either utterly detached and objective about a situation or so emotionally involved you have no perspective. You are not in touch with your feelings.
